## ***Motorola DTR650 Digital Two-Way Radios***

No license is required to operate these Motorola 900 MHz units and for added security the DTR650s have FHSS-Frequency Spectrum Hopping with 50 non-overlapping groups. Additional features include Digital One-on-One Calling, Public and Private Group calling, and more.

*Whether deep underground at a convention center or 40 stories up in your hotel room – Motorola DTR650 offers the best two-way solution.*

***Video West, Inc. provides broadcast and professional quality video, audio, lighting, and staging solutions to the corporate and live events marketplace. We support this with responsive and thorough service.***
